

# eNewsletter 2012 Editorial Calendar

January 5	Crypto modernization to safeguard military data and control	7/5	Not published
January 12	Trends in secure information storage	July 9–15*	<a href="#">Farnborough Air Show Report</a> July 9-15 • Farnborough, England
January 19	Trends in optical interconnects for aerospace and defense	July 19*	<a href="#">Farnborough Wrap-up</a>
January 26	Avionics trends & technologies	July 26	Trends in radiation-hardened electronics
February 2	Trends in Navy and Marine Corps avionics for manned and unmanned aircraft	August 2	MEMS and nanotechnology for aerospace and defense applications
February 9	Rugged embedded computing systems for avionics and vetronics applications	August 9*	<a href="#">Association for Unmanned Vehicle Systems International (AUVSI)</a> August 7-10 • Las Vegas, Nevada
February 16	Night-vision sensors	August 16	Sensor payloads for unmanned vehicle systems
February 23	Avionics trends & technologies	August 23	Graphics processing boards for aerospace and defense
March 1	Trends in electronic and electro-optical connectors	August 30	Avionics trends & technologies
March 8*	<a href="#">ATC (air traffic control) Global 2012</a> March 6-8 • Amsterdam	September 6	Satellite communications and spacecraft avionics
March 15	Embedded computing: trends in CompactPCI for aerospace and defense applications	September 13	Small-form-factor VPX embedded computing
March 22*	<a href="#">Avionics Europe 2012</a> March 21-22 • Munich	September 20	Avionics trends & technologies
March 29*	<a href="#">Asian Business Aviation Conference &amp; Exhibition (ABACE)</a> March 27-29 • Shanghai	September 27	Avionics trends & technologies
April 5*	Aircraft Electronics Association (AEA) International Convention; April 3-6 • Washington, DC	October 4	EDA and product lifecycle management tools
April 12	Trends in microprocessors for aerospace and defense embedded computing	October 11	Avionics trends & technologies
April 19	Avionics executive report: business trends and market outlook	October 18*	<a href="#">Digital Avionics Systems Conference (DASC)</a> October 14-18 • Williamsburg, Virginia
April 26	Avionics trends & technologies	October 25*	<a href="#">National Business Aviation Association (NBAA)</a> October • TBA
May 3*	<a href="#">AMC/AEEC Meetings</a> April 30-May 3 • Anchorage, Alaska	November 1	Satellite communications and spacecraft avionics
May 10	Trends in embedded real-time operating systems (RTOS) and other software	November 8	Power control and thermal management for military and aerospace applications
May 17*	<a href="#">European Business Aviation Association Convention and Exhibition (EBACE)</a> ; May 14 • Geneva	November 15	Standard and proprietary small-form-factor embedded computing
May 24	Mezzanine boards for embedded computing	11/22	Not published
May 31	Avionics trends & technologies	November 29	Avionics trends & technologies
June 7	Geospatial imagery, video, and other enabling technologies for remote-sensing satellites	December 6	Trends in virtual reality, simulation, and mission rehearsal
June 14	Advanced antenna technologies	December 13	Wearable computers for aerospace and defense
June 21	Rugged aerospace and defense display technologies	December 20	Avionics trends & technologies
June 28	Avionics trends & technologies	12/27	Not published
